

## OUTDOORS IN

### ADULT PROGRAMS AND CORPORATE FAMILY PARTIES

These interactive nature programs are geared toward adults and families; senior centres and residences, libraries and small businesses.

#### Birds of the Area

This is an intriguing presentation about some of the wonderful birds that live in the Calgary area and surrounding wetlands.

#### Animals People Love to Hate

Don't be disturbed by the myths and fallacies about wildlife that you hear! This presentation will enlighten you from the misinterpretations and misunderstandings that have been accepted for far too long.

#### Nature Walks

If you have an active group who love to walk, we can plan a nice leisurely stroll in one of the City's parks. Being out in nature excites the senses, so we will interpret what we see, feel and hear and learn a little about the history of that park along the way.

You are responsible for transportation to the City Park of your choice.

(Sorry no craft offered with this program)

#### Silent Hunters of the Night

Owls are fascinating creatures and have become the symbol of wisdom;

but are they? Find out this and more in this interactive presentation!

#### Animal Tracks

Who goes there? Many of us have seen tracks in the snow or mud and wondered who they were from. You can be the nature detective and discover who left the clue behind!

#### Nature Craft for Holiday Party

- Pine Cone Birdfeeder
- Fluffy Chickadee Decoration
- Snowman Decoration
- Winter Bookmark

Adult program is \$90.00  
Holiday program with craft is  
\$120.00
