

OUTDOORS IN

GUEST AFTERSCHOOL AND DAY CAMP PROGRAMS

These programs are all outreach coming to your location for lots of fun and interaction. If you have a certain animal or environmental theme that one of the school programs may fit than you may choose from those also.

Nature Games

Super fun games that will burn off some energy, while learning about some of Alberta's animals. A large area is needed for this program.

Professor Ants

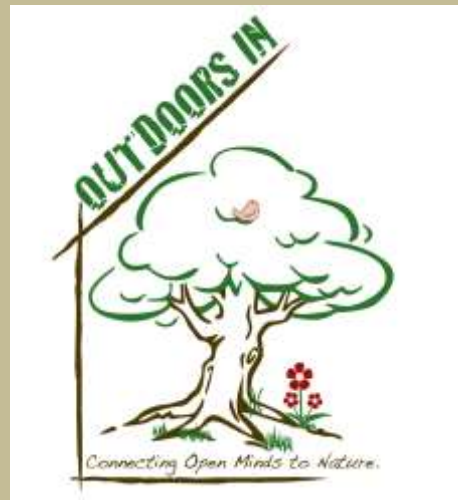

A visit from the Professor will have the kids laughing and learning in this humorous and interactive bug program, which is crawling with fun!

Sense-Able Activities

Investigate your senses! Smell nature's perfumes, feel nature's textures and experience the world without sight! This program works best with a small group.

Guided Walks

Children thrive in the outdoors! Maximize your outdoor nature experience with a nature walk in a local park! Games and activities will help your kids to discover the wonder of the natural environment.

Each program is 1 hour \$90.00
