

OUTDOORS IN

SPARK, BROWNIE, GUIDE AND PROGRAMS

SPARKS BADGES

Going Outside, The World Around Me, Exploring and Experimenting.

Let ***Outdoors In*** create an exciting nature outing for your group at a City park or your camping night! Interactive games, activities and nature props will all be part of the fun!

Grow Your Garden

Visit to the Inglewood Community Garden.

Water Water Everywhere

Water experiments that show just how precious water really is.

All About Canada

Ideal activities about the iconic animals of Canada...Beaver, Moose and Wolf. Includes a dress up.

Saving Water

Visit a wetland and find out how important they really are. We'll take a look at all the incredible animals and plants that inhabit them too!

Winter Outside

Join in on a nature walk evening or day. Some activities include looking at tracks and learn how to dress and be prepared for the weather.

BROWNIE BADGES

Happy Hiking

Let's take a walk in any City park and learn what to take with you. This program includes a dress up.

Which Way

Learn to use a compass with fun basic games. (Compasses are not supplied)

Saving our Plants & Animals

In this program you will learn about some of Alberta's animals that are at risk of disappearing and ways we can help save them. A very fun and interactive program.

Bird Watcher

See feathers, skulls and eggs of Alberta birds. Have the option of making your own bird feeder as well.

OUTDOORS IN

SPARK, BROWNIE, GUIDE AND PROGRAMS

GUIDE BADGES

Bird Watcher

Discovery stations of feathers, skulls and eggs or choose a nature walk to learn how to identify birds through field marks.

Ecology

Learn how animals interact with each other through food web and predator and prey games.

Endangered Species

An active program to learn about some of Alberta's Species at Risk.

Forestry

Let's go on a tree hike to learn about major tree groups and identify some common trees. Can include some nature journaling.

Gardening

Visit the Inglewood Community Garden; Calgary's biggest and finest.

Hiking

Pick a hike in a City park and let our nature interpreter help you to understand its unique environment.

Naturalist

Visit Nose Hill (grassland) or Griffith Woods (Spruce forest) to learn about the animals and plants that live there.

Wildflower

Finding edible, harmful, invasive and endangered plants on an incredible interactive nature walk. Can include nature journaling.

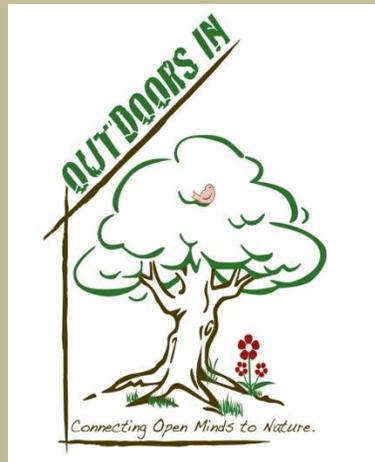

Saving Water

Visit a wetland and find out how important they really are. We'll take a look at all the incredible animals and plants that inhabit them too!

Winter Outside

Join in on a nature walk evening or day. Some activities include looking at tracks and learn how to dress and be prepared for the weather.

Each program is approximately one hour \$90.00

Maximum number of children is 30

Programs can be facilitated at your location
