

OUTDOORS IN BIRTHDAY PROGRAMS

Make a birthday unforgettable with one of our “naturally” fun parties. Choose from our 7 party themes explained below, based on your child’s unique interests. Outdoors In comes to your party location for an interactive program with games, animal props and activities that are sure to please. A related craft can also be included at no extra charge. Please note that most of these programs need a fair amount of space. They can be done outside in your backyard, large basement, local park or community centre room.

Professor Ants: Let Prof. Ants entertain your visitors with thrilling activities about bugs! Hunt for bug parts and then put the giant bugs together all the while learning about insects. Lots of games are all part of the fun. May include live water bugs! Ages 3-10

Wild Adventure Walk: Children thrive in the outdoors! Maximize your outdoor nature experience with a nature walk in a local park! Games and activities will help your kids to discover the wonder of the natural environment. Ages 3-10

Busy Bees: This program is buzzing with excitement! Your little bees will have fun collecting pollen and sipping nectar, doing the bee dance and more! Ages 3-5

Fabulous Frogs: Lots of really fun activities that will have your party goers hopping with laughter! Lily Pad Hop, Frog Survival, Fly catching contest and more! They will also get to hear what our local frogs really sound like! Ages 5-8

Owly Owls: Discover the unique characteristics of this very special bird. See lots of owl props and play some really cool games. Ages 5-8

Nature Games: Super fun games that will burn off some energy, while learning about some of Alberta’s animals. Ages 5-10

Birds of a Feather: Look at feathers, skulls and eggs and discover how birds survive through active games. Listen to some bird’s songs and calls too. Ages 5-10

Each program is approximately one hour \$120.00

Maximum number of children is 20
