

OUTDOORS IN

PRESCHOOL AND KINDERGARTEN PROGRAMS

Wonderful Winter

Through interactive games and activities we'll discover unique snowflake shapes and find out how some animals survive our Alberta winters. We'll also make our own snow and find out that snow is actually "warm!"

Bear Hunt

Going to catch a BIG one!! Your students will catch the FUN learning about Canada's 3 bears. What do these bears eat? What are the differences and where do they live? All those questions will be answered and then we'll go on a bear hunt...through obstacles that will test your student's agility. In the end will they find the bear?

B is for Birds

Everything bird in this intriguing program; feathers, eggs, nests and more! We'll learn about some of Calgary's common birds and your students will practise how to eat like a bird using beak-like tools!

Let's Be Sense-Able

Children love to explore with all their senses so we'll investigate nature through animal hearing and smelling activities, touch boxes and experiencing our world without sight! Children will learn what senses animals use the most.

Little Green Pinkies

What is a Garden? We'll discover what plants need and then using the "Magic Grow Bag" they will find out what they've grown! We'll play some active garden games, gardener dress-up and hunt for helpful garden animals including a giant ladybug!

PRESCHOOL AND KINDERGARTEN PROGRAMS

Baby & Toddler Time in Nature

An extra sensory engaging variety of nature explorations for your little guys. Textures, smells and an exciting “cave” to explore.

Wee Recyclers and Nature Too

Does nature have garbage? We'll discover what it is and how nature deals with it through a felt story board and a hands- on nature bin with worms and beetles! Your class will also discover where a piece of trash goes if it doesn't get recycled and share with you how we can save those pieces of trash from going to the landfill with a recycle sorting activity.

Professor Ants

Let Prof. Ants entertain your class with thrilling activities about bugs! Hunt for bug parts and then put the giant bugs together all the while learning about Insects. Lots of bug games are all part of the fun.

Animals in Spring

Children love baby animals and spring is the perfect time to discover bears, birds and bugs in this stimulating program. We'll compare how growing up is similar or different with these “kids” compared to your students!

Halloween Theme

Halloween is full of surprises and this program is no exception. Children will experience a mystery bag full of eerie creatures and learn a little about each one! There's Bat dress-up and together we'll make a giant spider web complete with giant spider! There's a venom activity too! A program sure to please all your ghouls & gals!

PRESCHOOL AND KINDERGARTEN PROGRAMS

Fabulous Fall

This exciting program of fun includes a leaf shape matching activity, songs and squirrel dress up. Your children will also pretend to be one of the 2 species of city tree squirrels and go on an acorn hunt! They'll also discover the colours that leaves can change and why.

Listen to Nature

Have you ever heard a porcupine whine or a fawn bleat? Animals have the strangest sounds and we'll find out who makes what sound and why during this exciting sensory program!

Wild Wolves and Brave Beavers

Amazing mammals! Dress up as a beaver or wolf and learn about their characteristics. Also find out how these animals are similar to your own family!

Beautiful Bees

Discover the world of bees with this interactive exciting program in which your students will get to be bees; sipping nectar and collecting pollen! How many jobs do bees have? What exactly is that buzzing sound? Why do bees dance? Find out that and lots more in this engaging program!

Frogs, Snakes and Turtles

Slimy, slithery, dry or scaly? Your students will be the detectives by using their senses to explore the characteristics of this very special groups of animals. Life cycles will also be explored. Some of the props your students will see are turtle shells, snake skin and in the spring tad poles!

“I have had "Outdoors In" at my preschool since the inception of both of our businesses! Miss Judy is a phenomenal nature educator and brings a lot of great activities to my classroom. She is very positive with the students and NEVER boring. She can fine tune any program she has created to suit a classes' needs. I highly recommend any of her programs.”
